

Course Information

Bachelor of Theology/Master of Theology (Coursework)(BTh/ThM)

The combined BTh/ThM program has been developed as part of a process of continuing improvement based on consultation with the major constituencies served by the College and recommendations received from the regulator of the Higher Education sector. The program is designed to maximise the potential for the College to prepare men and women for a lifetime of Christian ministry. The BTh (AQF 7) course component provides breadth and depth in knowledge of theology and ministry. The ThM (AQF 9) course component enables students to demonstrate learning outcomes necessary for the ministry roles for which the College prepares graduates. In particular, the ThM will enable the College to produce graduates that apply critical thinking to theories of ministry practice, are able to engage with recent developments in scholarship and are positioned for further study or research. The design of the two courses in the combined program enables students to achieve the course outcomes for a bachelor undergraduate award and the masters postgraduate award within a four-year period. A key element of this course design is in the final semester of the BTh which, for students who choose the combined program, will be notionally aligned to AQF 8 outcomes and will enable students to transition from the undergraduate course component (ultimately at AQF 7) to the postgraduate component (AQF 9).

Information for current students

Please note: The BTh/ThM is introduced with Year 1 in 2023, Years 1 & 2 in 2024, Years 1, 2 & 3 in 2025 and Years 1-4 in 2026. In 2023, students enrolled in the BTh in Years 2 and 3 or the BD in Years 2 to 4 will complete their studies in the BTh or BD.

Admission to the BTh/ThM Program

Admission to the College is a decision of the Governing Board exercised through the Principal. The admission requirements for the BTh/ThM program are as stated below. The process of admission will follow the [Undergraduate Student Admission Procedure](#).

Academic Admission Criteria

1. The normal academic entry requirement for the BTh is a degree from an Australian university or its equivalent.
2. Applicants whose degree was not in English are required to sit an examination administered by the International English Language Testing System (IELTS). Successful applicants must achieve a level of 7.0 or better in each category of the IELTS academic test or the TOEFL equivalent.

Other Admission Criteria

The College exists to prepare men and women for Christian ministry. In addition, several other prerequisites must be demonstrated for admission to the College, as numbered below. All the following are attested by personal references supplied by the applicant.

1. Understanding of and aptitude for Christian leadership and ministry (including leadership potential, ministry experience, experience of sharing the knowledge of God and exemplary personal life consistent with the principles of the Anglican Church of Australia, Diocese of Sydney).
2. Theological understanding (including a basic understanding of the Christian gospel, general familiarity with the content of the Bible and the capacity to make theological connections to personal life).
3. Aptitude for community living (including emotional maturity and relationship skills).
4. A firm intention of engaging in Christian ministry (broadly defined) after graduation.

Special Admission Categories

1. Mature age admission may be granted to persons who do not have a degree but who are twenty-one years of age or over on February 1st of the year of intended enrolment. Admission is confirmed upon the satisfactory completion of entrance examinations in English comprehension and study skills. Other studies may also be considered.
2. Special admission may be granted to persons who have successfully completed units equivalent to those in the first year, and at a standard required for the BTh/ThM.
3. The special admission categories described in this section do not apply to overseas students.

Progression in the BTh/ThM program

Progression from the BTh into the ThM requires the successful completion of the BTh with a final weighted average mark of 60% or higher. Students enrolled in the BTh may transfer to the BTh/ThM at the end of second year or semester five (in third year) provided they meet the criteria for advancement. For those students in the BTh/ThM program, the sixth semester at AQF level 8 functions as a bridge between the BTh and ThM, preparing students for the attainment of AQF 9 outcomes in the ThM while also contributing to the achievement of the BTh course learning outcomes.

Progression from the BTh to the ThM requires that the student continues to meet and has shown development in the course admission criteria related to Christian understanding, ministry, and community living. The relevant criteria are:

1. Understanding of and aptitude for Christian leadership and ministry (including leadership potential, ministry experience, experience of sharing the knowledge of God and exemplary personal life consistent with the principles of the Anglican Church of Australia, Diocese of Sydney).
2. Theological understanding (including a basic understanding of the Christian gospel, general familiarity with the content of the Bible and the capacity to make theological connections to personal life).
3. Aptitude for community living (including emotional maturity and relationship skills).
4. A firm intention of engaging in Christian ministry (broadly defined) after graduation.

Direct Admission to the ThM

Admission to the ThM for students who have not completed the undergraduate component of the BTh/ThM program will only be permitted under limited circumstances. The one-year duration of the ThM

requires that students admitted to the course have demonstrated attainment of AQF level 8 outcomes. Students who have completed the Moore Theological College BTh but not in the BTh/ThM program will be required to complete a capstone project demonstrating attainment of the AQF level 8 outcomes described for the final semester of the BTh in the BTh/ThM program.

Other exceptional admission to the course will only occur with the approval of the Academic Board and will only occur where the student has achieved a volume and level of learning that will position them for successful completion of the course.

Credit Transfer

1. The transferal of academic credit follows the principles of the [Academic Credit Policy](#).
2. Provided they have completed corresponding units in biblical Greek language study and in study of the Greek text of the New Testament, applicants who have satisfactorily completed at least one year's full-time study towards an equivalent degree from approved colleges affiliated with the ACT will be granted up to one year's credit towards the BTh (including in the BTh/ThM program). In such cases applicants may be required to demonstrate competence, through sitting an examination, in biblical Greek and/or Hebrew to the standard of the first year of the BTh. Depending on prior studies, such students may be required to enrol, as a co-requisite, in Biblical Theology.
3. Under the terms of a Memorandum of Understanding (MoU), students graduating from Youthworks College (affiliated with the ACT) with the Associate Degree of Ministry will receive credit for the first year of the BTh if they meet the conditions of the MoU, which include an average mark of at least 65%, a minimum amount of credit points in theology, biblical studies, and church history, and two units in the Greek language. Students may pass the Moore College end of Year 1 Greek exam if they have not completed two Greek units with Youthworks College.

Curriculum and Structure

The focus of the course is the knowledge and understanding of God revealed in Scripture. Three fields of study are designated, namely, Biblical Studies, Christian Thought and Christian Ministry. In keeping with its role in the determination of the subject-matter and the methodology of both Christian Thought and Christian Ministry, greater weight has been assigned to the fundamental field of Biblical Studies.

The objectives of the BTh/ThM program are best achieved through an integrated course design that aims first for competence across the three sub-fields of Biblical Studies, Christian Theology and Christian Ministry. Once this is achieved the course aims to develop more specialised knowledge and skills in selected areas. For this reason, freedom to follow one's interests in the choice of electives is reserved for students in their fourth year, with the exception of those who, from first year onward, may wish to replace the core Hebrew units with prescribed alternatives. For the sixth semester of study, students progressing to ThM will undertake all units at AQF 8, with those units being multistreamed at AQF 7 & 8. Students exiting with a BTh will complete a capstone unit based on Problem Based Learning (PBL) with their remaining units assessed at AQF 7. Instead of the capstone, the BTh/ThM students take a unit in Christian Thought.

2. If numbers are too low, an elective will not run. Not every elective will be offered every year.

Occupational Outcomes

The BTh/ThM program prepares graduates for leadership in ordained or other vocational ministry contexts as pastors and teachers who can develop, implement, and refine methods of ministry in the modern context. It is designed to prepare graduates for occupational outcomes including:

- Ordained ministry and church pastoral roles, including as youth and children's workers, church planters and evangelists,
- Christian student work on university campuses, such as with AFES,
- Missionary work with a mission organisation, locally or internationally,
- Chaplaincy roles, including schools, hospitals and prisons, and
- Theological education and Bible college teaching.

The BTh/ThM serves as preparation for several occupations which require mature and independent leadership capacity. In contemporary churches, the senior ministers are sometimes the heads of teams of people who work in collaboration with one another; often, however, they work without other professional assistance. In any case, the graduate will be expected to provide theological resources able to be used by others who depend upon his or her leadership.

Endorsement of the Anglican Diocese of Sydney

The normal academic requirement for ordination/commissioning in the Anglican Diocese of Sydney is the completion of four years of study at the College. The BTh/ThM program has been designed to meet this requirement and it has been endorsed by the Archbishop of the Anglican Diocese of Sydney.

Pathways and Relationships to Other College Courses

1. ThM graduates at pass level may proceed to the College's MA (Theology).
2. Graduates with Honours 2A or above who completed the research project unit (CT499) may proceed directly to the College's Master of Theology (Research) (MTh) or Doctor of Philosophy (PhD) course. Graduates with Honours 2A or above who completed Issues in Theology (CT400) instead of the research project unit (CT499) need to successfully complete a research task set by the Research Committee to be admitted to either the MTh or PhD.
3. BTh graduates may articulate to the College's MA (Theology).

Students who have completed the Moore College Advanced Diploma of Bible, Mission and Ministry (AdvDBMM) may apply for academic credit to continue their study in the second year of the BTh/ThM. To enter directly into the second year, AdvDBMM students must have passed Greek 1A, Greek 1B, and CT111 as electives. Transitioning from the AdvDBMM to the BTh or BTh/ThM requires the approval of the Academic Dean, who considers academic capability and the other admission criteria of the BTh and BTh/ThM.

The relationships of courses of the College are shown in the diagram on the following page.
